

DISCover E-Learning: Interactive, web-based training

Optimise your training budget to deliver cost-effective, 24/7, state-of-the-art life sciences education and training, on demand. **DISCover** delivers best-practice, effective e-learning to the worksite.

DISCover has been developed by industry experts covering regulatory compliance to all major international cGMPs, such as FDA, EU, PIC/s, TGA, and ISO 13485/CFR 820.

DISCover modules combine the impact of expert content and multimedia to make the learning experience simple, consistent, more engaging, and more memorable.

DISCover can be a perfect compliment to your instructor-led programs to deliver a cost-effective, blended learning solution.

Trainees can access training in their own time, when they want.

All training and records can be managed and the training events scheduled, through one of our hosted commercial Learning Management Systems (LMSs).

"We operate in multinational markets and need smart, compliant and cost effective training that works first time. SeerPharma DISCover GxP e-learning is a perfect solution for our needs. It delivers first class web based content, manages all our training records seamlessly on line and is great value. Our staff actually enjoys GMP training now!"

Phil Elliott,
Quality Manager,

Custom e-learning modules

SeerPharma can work with your Subject Matter Experts (SMEs) to develop interactive modules specific to your company. We will project manage every step of the module development process, from developing the instructional design storyboard and multimedia storyboards, right through to developing audio scripts and assessments.

SeerPharma can also customise its existing modules for your workplace, incorporating company-specific multimedia, and linking to company documents, policies, and SOPs.

As a growing global company, we need to be able to efficiently yet effectively train our increasing employee base about our specialty products and services. SeerPharma have helped us to develop customised e-learning modules that meet our very specific needs. Working with the professionals at SeerPharma has resulted in delivering effective learning solutions with solid instructional design, so that our employees all around the world can grow and develop their knowledge and skills! SeerPharma have been fantastic to work with each step of the way - their customer service is wonderful and we are extremely pleased with the results."

Margaret Uriarte,
Global Product Training Manager
